(54) Title: MODIFICATION OF CLICK-TO-DIAL INITIATED CALLS PRIOR TO THE CALLING PARTY GOING OFF-HOOK

(57) Abstract: The invention provides a modification to the operation of the intelligent network instruction set whereby on transmitting an Initiate Call Attempt message between the SCP 7 and an SSP 4 an instruction is included which forces the SSP 4 to send a response message whereby the identify assigned to the actions requested is known to the SCP 7 prior to the occurrence of a BCSM event at the SSP.

For two-letter codes and other abbreviations, refer to the "Guidance Notes on Codes and Abbreviations" appearing at the beginning of each regular issue of the PCT Gazette.
